Item code		Rate (Rs.)	Unit
	<p>Galvanized Steel Gabion Boxes and Gabion Mattresses ASTM-A974 a wire fabric container, uniformly partitioned of variables size, interconnected with other similar containers, and filled with stone at the site of use, to form flexible, permeable, monolithic structures such as retaining wall, breast walls, channel linings, revetments and wires for erosion control, gabion with relatively small height in relation to the lateral dimensions, generally used for lining channels. Lacing wire for gabions, a metallic-coated steel wire used to assemble and interconnected empty gabion units and close and secure stone-filled units, used as an alternate to spiral. Spiral binder for gabions a length of metallic coated steel wire preformed into a spiral, used to assemble and interconnected empty gabions units and to close and secure stone filled units, used as an alternate to lacing wire. Stiffener for gabions a length of metallic coated steel wire for support by forming a diagonal brace across the corners, inside of the gabions container. Stiffeners are produced using lacing wire for on site applications or shipped performed using heavier wire gauge ISI marked-Welded wire fabric as per IS: 4948-2002 & ASTM - A974 material composed of a series of longinotirul and transverse steel wires arranged substantially at right angles to each other and welded together at the points of intersection by electrical resistance welding to form fabricated sheet.</p>
